Construction on the Lee Bank branch on Main Street in Great Barrington continues.

## *Construction at Lee Bank leads to upcoming changes*

We are making progress! In order to reconfigure the front entrance of Lee Bank in Great Barrington, and install the new and improved ATM and Night Drop equipment, both machines will be unavailable starting the week of March 11th. We're planning for this phase to take less than two weeks, after which the new entrance will be functional for ATM and Night Drop customers, and we will continue to ask lobby customers to enter through the back.

As always, the ATM and Night Drop at the Stockbridge branch

MEMBER FDIC/MEMBER DIF  EQUAL HOUSING LENDER

at 3 Elm Street will be available. Additionally, customers who incur an ATM fee at another local bank during this period will be refunded when receipt is presented. We will update you when we expect service to be restored, and you can get the latest by log-

ging into our website at [leebank.com](http://leebank.com).

Thanks for your loyalty during the disruption to our ATM and Night Drop, and sorry for the inconvenience. We hope you like the upgraded vestibule and services when they are available again shortly.
