Lee Bank renovation makes progress

The renovation of the Great Barrington Branch of Lee Bank is starting to take shape! We are fortunate to have been able to stay open during the renovation process. Our ATM and Night Drop are up and running and can be accessed 24/7 on Main Street at the front of the branch.

Now that the first phase of the renovation (the front of the building) is nearing completion, we look forward to moving operations into the new space within the next month. Be sure to check out the progress as you walk by or when you are in for a visit! Next we will transition to Phase Two where the back half of the branch will continue renovation.

Chris Kinne, VP of Commercial Lending, and Bonnie Masefield, Mortgage Originator,
